

## FACULTY OF SCIENCES OF THE UNIVERSITY OF PORTO [TEAM]

	Teresa Monteiro Seixas	Manuel António Salgueiro da Silva
PhD	Condensed Matter Physics	
Position	Assistant Professor	
Research centre	CITEUC ( <i>Centre for Earth and Space Research of University of Coimbra</i> ), Solar System Sciences	
Department	Physics and Astronomy	
Research topics	Reflectance Spectroscopy Mineralogy of Asteroids and Meteorites Mechanisms of Electrical Charge Generation and Propagation in Rocks under Mechanical Action	
WP3 –IO5	Survey on Teaching and Assessment Methodologies in Planetary Geosciences and Astrophysics	
Courses GeoPlaNet EMJMD	Reflectance Spectroscopy of Asteroids Computational Methods Applied to Geophysics	

## FACULTY OF SCIENCES OF THE UNIVERSITY OF PORTO [Location]

## FACULTY OF SCIENCES OF THE UNIVERSITY OF PORTO

### [Departments]

- **Mathematics**
- **Physics and Astronomy**
- **Geosciences, Environment and Spatial Plannings**
- **Chemistry and Biochemistry**
- **Biology**
- **Computer Science**

## FACULTY OF SCIENCES OF THE UNIVERSITY OF PORTO [P-A & Geosciences MD Courses]

- **Physics (Condensed Matter; Optoelectronics; QT; GR)**
- **Astronomy and Astrophysics (Stars; Solar System; Extra-Solar Planets)**
- **Engineering Physics**
- **Remote Sensing**
- **Surveying Engineering**
- **Geology**
- **Geomaterials and Geological Resources**

## FACULTY OF SCIENCES OF THE UNIVERSITY OF PORTO [GeoPlaNet EMJMD (possible) internships]

- FCUP-CITEUC (Reflectance Spectroscopy of Asteroids)
- IA-CAUP
- GEO
- Space companies (to be explored)
